Bitter & Co. Advertising Agency, Vechta

What I've been doing

Translation of complex problems into efficient yet simple UIs for desktop, tablet and mobile apps while considering a multitude of technical constraints.

Working directly with users and customers to iterate from sketches and wireframes to high fidelity click prototypes and supporting the development process with CSS snippets and reviewing implementation.

Creation of small websites, print products or marketing videos.

Education

2011 – 2017
Bachelor of Arts, Interface Design (1,1 ~ 4.0 GPA)
University of Applied Sciences, Potsdam

2014 – PRESENT
